## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Response to Arguments***

Applicant's arguments filed 2/12/10 have been fully considered but they are not persuasive. Applicant argues that the references teach adding the antiscaling agent to the first side of the membrane in contact with the concentrate fed, and not to the side with the osmotic solution, and that there is not motivation to add the antiscaling agents to the cell or chamber with the second solution with the osmotic agent, an that the second solution is a clean solution. However, the second solution contains salts such as magnesium sulfate hydrated ( $\text{MgSO}_4 \cdot 6\text{H}_2\text{O}$ ), which salt can if in contact with the membrane for certain time stick to the membrane and cause fouling, Therefore, it would have been convenient by the skilled artisan to additional of providing antifouling agents on the fed side of the membrane, also provide scaling agents in the second solution to protect the membrane from scaling from the magnesium sulfate salts. Furthermore, since the second solution is further treated by a membrane to concentrate the second solution, the skilled in the art would have been motivated to provide the antifouling agent in the second solution in the chamber, or at a point before the nanofiltration membrane, to protect the nanofiltration membrane of scaling that can be produced by the magnesium sulfate salts in the second solution, as conventional in the art.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
